TECHNICAL SPECIALIST

@ben\_project [www.applepark.co.uk](http://www.applepark.co.uk)

# Sharing and Presenting

# Present from Your Desktop

No ability to “formally” present from Power BI desktop

From your desktop, use either Power BI desktop or [app.powerbi.com](https://app.powerbi.com)

Use features such as Spotlight and the Selection Pane to highlight key visuals

When presenting your report,  
try and tell a story.

Presenting Power BI allows for a much more  
interactive presentation than PowerPoint

# Demo

**Presenting from your desktop**

# Embed in SharePoint or Publish to the Web

## Embed in SharePoint

- Data is still secure and only available to authenticated users

## Publish to the web

- The report is now publicly available on the internet

# Demo

## Embedding a link in SharePoint

### Publish to the web

# Export to PowerPoint

**Provides a document of record**

**Limited to 15 report pages**

**Preserves any selected slicers**

**Exports hidden pages**

# Demo

## Export to PowerPoint

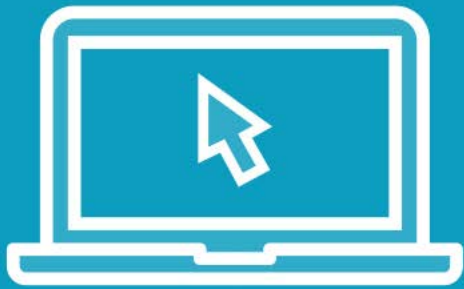

# Print

**Prints the current page**

**Does not provide a “rich” experience**

# Demo

## Printing

# Summary

**Presenting**

**Embed in SharePoint and publish to the web**

**Export to PowerPoint**

**Printing**
